## CSWC Operational Period Summary

### 1800 June 06 2017 to 0600 June 07 2017

Standing on a granite hillside off California's scenic 17-mile drive in Pebble Beach, Monterey County, the Lone Cypress is a western icon, and has been called one of the most photographed trees in North America. Possibly as old as 250 years, the cypress has been scarred by fire and has been held in place with cables for 65 years.

#### **Derailment, Unincorporated County area San Benito, San Benito County, SPILL: 17-3991**

On 06/06/17 at 2142 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) advising two boxcars derailed in the upright position. The derailment occurred at the Coast Subdivision, Mile Post 90 in an unincorporated area within San Benito County.

- There were no injuries to crew members.
- No hazardous materials release occurred.
- It is unknown what the boxcars contained at the time of the derailment.
- The reason for the derailment is under investigation.
- The CSWC made all appropriate notifications per Hazardous Materials SOP.

#### **Derailment, Martinez, Contra Costa County, SPILL: 17-3995**

On 06/07/17 at 20515 hours, the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) advising one tank car derailed in the upright position. The derailment occurred at the Tracy Subdivision, Mile Post 38 near the Martinez area within Contra Costa County.

- There were no injuries to crew members.
- No hazardous materials release occurred.
- The tank car was empty at the time of derailment.
- The reason for the derailment is under investigation.
- The CSWC made all appropriate notifications per Hazardous Materials SOP.

# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Coastal Region**

#### **Paul's Slide, State Route 1, Monterey County**

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.
- State Route 1 opened briefly on 06/02/17 for locals and delivery access. Full closure resumed the evening of 06/02/17 through Tuesday 06/06/17 in the evening.

#### **Mud Creek Slide, State Route 1, Monterey County**

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed last week due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- There is no estimate when this section of State Route 1, approximately nine miles north of the San Luis Obispo/Monterey County line will re-open.

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

# SITUATION SUMMARY

## 2017 Statewide Winter Storms

### Cal OES Inland Region

**River Forecast – The following river is forecast to meet or exceed Flood stage:**

- **Mariposa County:**

- Merced River at Pohono Bridge is forecast to exceed flood stage on and off at above 10.0 feet and up to 10.6 feet through 06/09/17.
- Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.

- **Placer County:**

- Truckee River at Truckee is forecast to exceed flood stage at 6.5 feet the morning of 06/07/17.
- Flood Stage. Some minor flooding of lowlands...pastures and rural roads. Maximum diversion to Topaz Lake is about 1300 cfs...remainder goes down the West Walker to Smith Valley/Wellington. If Topaz is releasing...flow at Wellington will be Topaz release plus amount going the West Walker below the Topaz diversion. Approximately 3000 cfs.

**River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:**

- Alpine County: East Fork Carson River at Markleeville, West Fork Carson River at Woodfords

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

### Cal OES Southern Region

**River Forecast - The following river is forecast to meet or exceed Flood stage:**

**Mono County:**

- West Walker River at Highway 395 below Little Walker is forecast to exceed flood stage at 6.6 feet the morning of 06/08/17.
- Minor to moderate flooding of lowlands...pastures and some rural roads along river from Walker to Topaz Lake. Moderate flooding on the lower West Walker (Smith Valley/Wellington) and mainstem Walker (Mason Valley/Yerington). Some sandbagging of structures likely in the Mason Valley/Yerington area. Approximately 3800 cfs with a 1 in 10 chance of occurring any given year.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

# WEATHER OF CONCERN

## Weather of Concern

- A cold front will bring unseasonably heavy rain to Northern California Wednesday night through Thursday morning. Rain will end from north to south on Thursday. A few light showers are possible on Friday with a better chance for showers Friday night and Saturday.
- **Active Weather Warnings, Watches and Advisories by County:**
- [http://www.wrh.noaa.gov/sto/brief/wwa\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php) - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

## **WEATHER SYNOPSIS BY REGION**

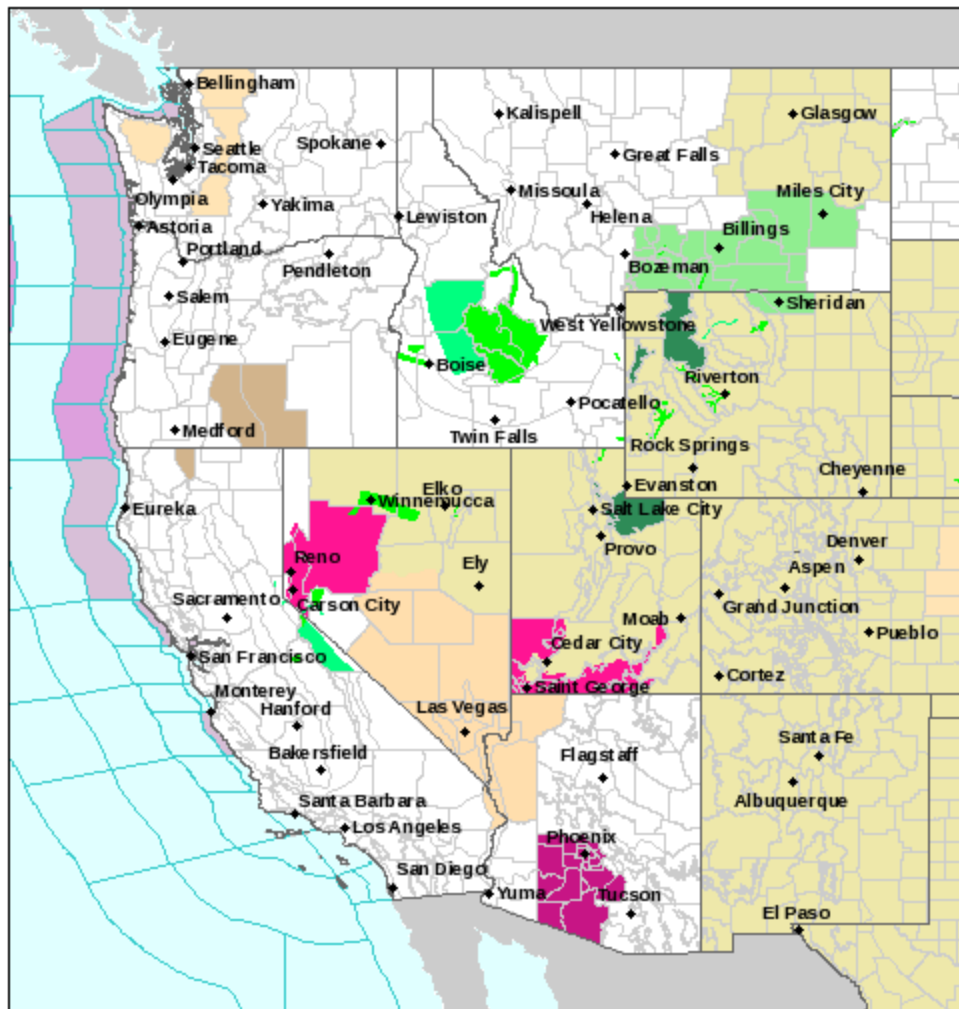

### **NORTHERN CALIFORNIA**

Today will be a bit cooler as a low pressure trough off the coast moves our way. The big change in weather pattern will come later as that trough arrives at the coast. It will be moving ashore Thursday with quite a bit of rain developing over all areas of the Northern California region starting late Wednesday evening at the coast and spreading inland overnight and Thursday. Wetting rain (0.10") will be possible in most areas with many locations west of the Cascade/Sierra crest receiving quite a bit more than that. Some showers will be lingering in the northern and eastern areas Friday and Saturday as well. Higher pressure with dry, warming conditions will return Sunday. There will be some gusty S to SW winds develop this afternoon as the system approaches followed by a chance of gusty northerly winds developing late in the weekend. Temperatures will be in the low and mid 90s again today in the warmest inland areas then plummet Thursday to around 70, which will be as much as 15-18 degrees below seasonal normals there. Temperatures will be slow to warm up until early next week.

### **SOUTHERN CALIFORNIA**

The pattern of warm and dry conditions inland with marine layer coverage near the coast will continue today. Temperatures have been near, to a bit above, normal across areas inland and above the marine layer with some valleys reaching the lower 90s the past two days. Minimum RH above 5,000 feet will drop into the 8-12% range today across Southern California. An unseasonably deep trough will plow into the Pacific Northwest later this week which will result in much cooler weather, particularly to the inland valleys of the central part of the state. By Friday, high temperatures will be 10-15 degrees cooler with valley readings only in the upper 70s to lower 80s. Southwest winds will begin to increase in and near the deserts this afternoon, possibly reaching speeds of 20-30 mph with higher gusts by Thursday and Friday. There is a chance of some light shower activity across Yosemite N.P. Thursday and Thursday night, but most of the precipitation associated with this system will remain to our north. Cool, breezy weather will last through Saturday before a warming trend begins early next week.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2017-LAW-36195, 6/5/17, 1501 hours:** Plumas County Sheriff's Office requested an Area Search K9 to assist in locating an adult female, missing person. Defined search area is along the Feather River where her vehicle was located. **Update, 2231 hours:** Plumas County Sheriff's Office made an additional request for both Area and Trailing K9's to continue the search effort. LDO coordinated with the CAL OES K9 Coordinator and secured these resources. **Mission Ongoing**

# **Cal OES MISSIONS**

## **Cal OES Missions**

- **2017-SOC-34379:** Technical specialist for spillway floor inspections at Oroville Dam, Butte OA – Demobilizing
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

## **Presidential Declaration Storms – FEMA-4301-DR-CA & FEMA-4305-DR-CA**

- Preliminary Damage Assessments are complete for counties named under Presidential Declaration FEMA-4301-DR-CA and FEMA-4305-DR-CA: Alameda, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Trinity, Tuolumne, Yolo, Yuba

## **Presidential Major Disaster Declaration - FEMA-4308-DR-CA**

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities: Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Glenn, Humboldt, Kings, Lake, Lassen, Marin, Mariposa, Merced, Modoc, Monterey, Napa, Nevada, Plumas, Sacramento, San Benito, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba Counties.
